Professional Summary

Java Backend Developer (Fresher) with strong hands-on knowledge of Core Java, Advanced Java, and Spring Boot. Experienced in building RESTful APIs using Spring MVC, Spring Data JPA, Hibernate, and JDBC with MySQL and MongoDB. Solid understanding of OOPs, collections, exception handling, multithreading, and backend architecture. Seeking an entry-level Java Developer role to contribute to scalable enterprise applications.

Education

Centre for Development of Advanced Computing (CDAC), Hyderabad
Post Graduate Diploma in Advanced Computing (PG-DAC)

Aug 2025 – Present

Rajkiya Engineering College, Azamgarh
B.Tech in Information Technology

Nov 2020 – Jun 2024
GPA: 7.0

Technical Skills

Languages: Java, SQL

Core Java: OOPs, Collections, Exception Handling, Multithreading, JVM

Advanced Java: Servlets, JSP, JDBC, Session Management

Frameworks: Spring Core, Spring MVC, Spring Boot, Spring Data JPA, Hibernate

Databases: MySQL, MongoDB

Web Technologies: HTML, CSS, Thymeleaf

Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA

Projects

Online Book Management System (Spring Boot)

2025

- Developed a RESTful backend application using Spring Boot, Spring MVC, and Spring Data JPA.
- Implemented CRUD operations for books, users, and categories with MySQL database.
- Integrated Hibernate ORM for efficient database interaction.
- Implemented exception handling and validation for APIs.

Employee Management System (Spring Boot + Hibernate)

2025

- Built a backend system to manage employee records with role-based access.
- Used Spring Boot, Hibernate, and MySQL for persistence.
- Implemented pagination and sorting using Spring Data JPA.

Student Portal Web Application (Servlets & JSP)

2024

- Developed a Java web application using Servlets, JSP, and JDBC.
- Implemented login, registration, and session tracking.
- Followed MVC architecture for clean separation of concerns.

REST API for Library System

2024

- Designed REST APIs using Spring Boot for managing books and members.
- Implemented JWT-based authentication and authorization.
- Tested APIs using Postman.
